On behalf of the 'Fertility Preservation Society' of India it gives us immense pleasure to invite you for our 2nd annual conference on fertility preservation – ‘FERTIPROTECT-2’ on the 26th and 27th of September 2015 at the Silver Oak, India Habitat Centre, New Delhi. Both social freezing and onco-fertility are becoming increasingly important in our practice. Onco-fertility is an area that requires a thorough knowledge in two disciplines of medicine – oncology and reproductive medicine. The conference aims to improve both awareness and understanding of this discipline amongst Oncologists and Fertility Specialists. A workshop on fertility preservation techniques has been organized for embryologists on the 25th of Sep. 2015 at the Army College of Medical Sciences.

We have taken care to bring together an excellent national and international faculty, who will share their knowledge and experience with you. I look forward to your active participation in the event.
